Tatoo you with the true

TATOO YOU WITH THE TRUE

I m tatoo you with true
With all my love for you
I tatoo my love on you
I know you fell true too
There s no piece of you
My hands did not knew
There s no place of your heart
My mind did not touch smart
There s no place in your mind
That I left unknown behind
I tatoo all your body kind
With kisses and flowers
With thin touch and roses
I tatoo all your body strong
With lips that never wrong
I tatoo your pictures in bed
With thousands stars coloured
Tatoo your body with roses
Tatoo your beautiful faces
Tatoo with chocolate your lips
My strong love you always miss
Get you up to blue skies
Get you out of the times
Give you eternity feeling
You know sure the meaning
The things we have done
My love you re the one
There s no one lady on earth
That cries and her heart hurt
When I m not with you
You re sad and cry true
You scream and you do
On your big heart a tatoo
Oh what beatiful life
My lovely perfect wife
Heaven is my all day
And I want you to stay
Near me every moment
In my dreams and all night
Love me till morning light
Love me rapid movement
There no other like you
Coz I knew how to tatoo
You with love and with true

You re one man woman I love
You re the one big love I see
I mean all for you I m your man
Only with me you fell glad
Only with me you re not sad
I tatoou you all with the true
And bring your love back to you
You always know what to do
To tatoo my picture with you
